Why Read Aloud with Children?

- Studies prove that the most important thing adults can do in preparing young children for success in school and reading is to read aloud with them.
- Many doctors believe that a child that has never had the experience of being read to is not a fully healthy child. The American Medical Association has suggested that all doctors prescribe "reading to children".
- Reading aloud with children regularly is an extremely effective medium to build relationships and communicate with children.

DON'T LET THE SUMMER GO BY WITHOUT READING TO YOUR CHILD!

Truevine Parents, please make sure that your child reads over the summer. Many school districts in Mississippi require summer reading books that students must read over the summer. Students will also have an option to take Accelerated Reading Test on certain books either during the summer at certain JPS school sites or when they return on August 10, 2009. Please check the JPS website for required readings.
